

JAMIE ZHANG

AI PRODUCT BUILDER / VIBE CODING

zhangjiangmin0902@gmail.com | github.com/Jamie-zhang1 | heard-sheep.cloud

PROFILE

Logic-trained AI product practitioner who turns messy real-world requirements into clear, testable product flows. Builds working prototypes with Next.js, TypeScript and AI APIs, focusing on multimodal input, human confirmation, safe fallback behavior and delivery-ready product documentation.

SELECTED PRODUCTS

Heard Sheep

MULTIMODAL AI TASK ASSISTANT / LIVE MVP

Turns voice, audio, images and text into user-confirmed tasks and action plans.

- Designed capture -> transcript confirmation -> AI analysis -> candidate task confirmation.
- Built a mobile-first PWA, task management loop, history and model-failure fallback.

ProdDoc AI

AI PRODUCT DOCUMENTATION WORKSPACE / INTERACTIVE DEMO

Organizes product inputs, references and reusable templates into editable document drafts.

- Designed prompt, API and Mock modes for real use, offline work and stable demonstrations.
- Built template extraction, multi-format parsing, local history and Word export workflow.

AI Decision Copilot

STRUCTURED DECISION ASSISTANT / EXPERIMENT

Transforms open questions into comparable options, evidence, recommendations and risk notes.

- Designed dual-path analysis for existing options or AI-suggested alternatives.
- Created a no-key preset demo while retaining MiMo multimodal capability in the full project.

CAPABILITIES

AI product design

Vibe Coding

Product flow design

Multimodal UX

Requirements structuring

Product documentation

Logic modeling

Prototype delivery

TECHNOLOGY

Next.js / React / TypeScript / Tailwind CSS / shadcn/ui / AI APIs / PWA / Playwright

PRODUCT APPROACH

1. Find real workflow friction
2. Structure inputs and decisions
3. Build a usable prototype
4. Validate failure states and responsive behavior
5. Ship the story and working entry point

EDUCATION

China University of Political Science and Law

Master's student in Logic

Legal logic, mathematical logic and rule modeling.

BACKGROUND

Experience in hotel management and enterprise services, including customer needs, order workflows, training materials and service records.

LANGUAGES

Chinese (native)

English (working proficiency)
